Projects

Title: Toki

App URL : <https://apps.apple.com/af/app/toki/id1504679492>

Objective: The Toki app is an easy-to-use application that saves you time, with all the services everyone needs every day at once. You can easily and quickly get the services you need every day from one place, such as calling a taxi, ordering coffee, food, getting unit data, paying your bills, playing games, and recharging.

Title: eMembership Card

App URL : <https://apps.apple.com/us/app/emembership-card/id1161384548?ls=1>

Objective: This app contains the list of different Museums in the US where the users can buy membership to the particular museum and can download their respective museum's card and save it to their wallet for future use. They'll receive notifications of the activities of the museum whether it is related to the use of their card or any other exciting offers from the museum.

Title: CRx

App URL: <https://apps.apple.com/us/app/crx-by-hcf-compliance/id1479193433?ls=1>

Objective: This app was made for inspection of the different hospitals in the US. It provides

hospitals with physical environment risk management and compliance solutions and tools in order for their facility's inspections, rounds, drills, and tasks to maintain compliance, resulting in successful surveys.

Title: Omaha Children's Museum

App URL:

<https://apps.apple.com/us/app/omaha-childrens-museum/id1369141763?ls=1>

Objective: This app lets users buy membership of museum and can download their card and save it to their wallet for future use. They'll receive notifications of the activities of the museum whether it is related to the use of their card or any other exciting offers from the museum.

Title: Fastlane Member Kiosk (Only for iPad's)

App URL : <https://apps.apple.com/au/app/member-fast-lane-kiosk/id1544979380>

Objective: Fast Lane solution allows your members to gain quick entry without waiting with other visitors No need to staff additional person for members.

Fast Lane Kiosk is a solution on iPad affixed on counter/ stand. It comes with a companion iPad with Fast Lane for your staff. Member puts in couple pieces of info and their card to instantly show up on screen. At the same time, card also pops on Staff iPad instantly while they may be attending other people in general queue and staff can verbally acknowledge them in.
